

Your Home Base For An Epic Weekend

Newly renovated, 3000 sq. ft townhouse in the heart of the action. I purpose built this property for large groups looking for a massive space with private rooftop patio, 11+ beds and all the modern amenities you will need for an incredible Montreal stay. I chose the area (Saint Denis Street) because if you're a tourist visiting, then there is no other street in Montreal like it. The place is within walking distance to some of the best restaurants in town (Au Pied de Cochon, L'express) and the best bars/nightclubs.
